

Disk of International Trade 2005

Miami International Airport's (MIA) ***Disk of International Trade (DIT)*** consists of country trade inspections for each of the countries, which did business through MIA for calendar year 2004. You can see the annual trade for a given country, expressed in four columns showing export weight, export value, import weight and import value. Each column lists all the commodity-groups, which that country traded with MIA in 2004, and the percent change from 2003.

Additionally, this year you can also see the regional trade for each of the regions, which did business through MIA in 2004.

The ***Disk of International Trade*** is an easy to use, self-installing, self-running program.

Steps to Install:

1. Create 2 sub-directory
 - a. Called DIT2005 on your local hard drive. (C:\DIT2005)
 - b. Sub-directory under DIT2005 called INSTALL on your local hard drive. (C:\DIT2005\INSTALL)
2. Click on the first link below, called **2005 Edition, Disk of International Trade Installation File**.
 - a. Click on the SAVE button. This will copy DITSetup.zip file. Be sure to copy this file to the new sub-directory (C:\DIT2005\INSTALL), which you just created.
3. Click on the second link below, called **2005 Edition, Disk of International Trade Installation Library**. This will copy the DIT program zip file.
 - a. Click on the SAVE button. This will copy DITSetup.zip file. Be sure to copy this file to the new sub-directory (C:\DIT2005\INSTALL), which you just created.

4. Locate sub-directory C:\DIT2005\INSTALL
 - a. Click on DITSetup.exe. This will unzip two files:

Setup.exe and
Setup.lst
 - b. Be sure to Save these files to sub-directory C:\DIT2005\INSTALL
5. Click on Setup.exe and the DIT Program will install.
 - a. Change the installation directory path to C:\DIT2005
 - b. You can use the default program group DIT
6. You can execute the program by:
 - a. Click on Start Button at the bottom left of your screen, Click All Program and you should have a program folder DIT. Inside will have an icon just click on it to execute the program. OR
 - b. Click on DIT.exe in the sub-directory C:\DIT2005 to execute the program.
