Scope of Work: (Contractor must obtain and submit all permits prior to performing any work.)

The Internal Services Department (ISD), in an effort to create expedited contracting opportunities for our participating Certified Small Business Enterprises-Construction (SBE-Construction) within the Miscellaneous Construction Contract's (MCC) 7040 Plan and to provide the Miami-Dade Aviation Department (MDAD) with qualified contractors willing to perform critical on-call services and emergency/priority maintenance work at MDAD's facilities, is working with MDAD to create a work order-based program of contractors to perform these services. The parameters of this work order-based are as follows:

1. All participants must be certified SBE-Construction and registered active participants in the MCC 7040 plan;
2. This work order based program for MDAD emergency/priority work shall be established for a period of 18 months. At the end of the 18 months, MDAD shall evaluate the results of the program and, if the results merit, shall re-advertise this solicitation to increase competition and to allow for the participation of other SBE-Construction firms.
3. Two (2) contractors for Plumbing trade with a corresponding maximum contract value not to exceed \$200,000 shall be selected to participate in this work order based program. Selection of contractors shall be made by MDAD and shall be based on competitive unit prices (including contractor mark-up), qualifications, experience, past performance, availability and capacity. Two (2) Requests-for-Price Quotation (RPQs) shall be advertised for Plumbing trade. A proposal submitted for one RPQ shall be deemed to be a proposal submitted on all RPQs for Plumbing trade, unless the proposer affirmatively indicates with its response that it is only submitting a response on the single RPQ. In order to increase opportunities for SBE-Construction firms and to provide flexibility for MDAD, prospective contractors shall only be granted one award in the specific trade. However, prospective contractors may be awarded contracts in different trades, whether or not such contractor has been awarded a contract under any other trade classification, if they possess the required valid license to perform work in those different trades.
4. The maximum contract value for this RPQ shall not exceed \$200,000 therefore contractors shall not be required to provide a Payment and Performance Bond. However, since the maximum contract value exceeds \$100,000, County Responsible Wages shall be applicable (Building Construction).
5. Since a conference call does not require a physical presence, social distancing practices for COVID-19 are being adhered to. Bidders are still required/responsible for participating in the MANDATORY conference call. Failure to participate in the MANDATORY conference call shall result in the corresponding contractor/company being considered non-responsive. Contractors are extremely encouraged to call 5 minutes before the scheduled meeting time for a roll call. Late arrivals to the conference call shall result in the contractor/company being considered non-responsive.

The conference call will be recorded.

The dial-in instructions for the conference call are described below:

- Dial in: 305-876-8333
- Meeting ID: 5762555
- Passcode/Pin: 5869

The agenda for the pre-bid conference call meeting will be sent to you via email to be used during the meeting. Make sure you receive it, if not, please check your junk email or contact our office.

6. All requests for information (RFI) shall comply with the Cone of Silence, Administrative Order 3-27 and shall be directed in writing to the MDAD PM with a copy to the Clerk of the Board (clerkbcc@miamidade.gov). The deadline to submit RFIs is no later than three (3) working days before the bid opening date and time specified on the RPQ and Invitation to Bid. The MDAD will issue all changes and/or clarifications to the RPQ in writing via an Addendum. Verbal statements made by the County or the Owner's Representative that are not contained in the RPQ or Addendum are not binding on the County and do not form any basis for a bidder's response to a RPQ.

7. The bid box is located in the hallway between Conference Rooms B-205 and B-209 in MIA Bldg. 3030, B-Wing, 2nd Floor. If the time clock adjacent to the bid box is unable to stamp the bid envelope due to its thickness, please see Ms. Silvia Perez, Mr. James P. Ferreira or any MDAD representative at MIA Building 3030 to have bid envelopes signed, dated and timed prior to dropping them in the box.

8. This is a Work Order based contract to perform critical on-call services and emergency/priority maintenance work at MDAD's facilities. The Work could be landside or airside and the employees from the awarded contractor as well as its subcontractors (if applicable) shall obtain MDAD identification badges including the CBP seal and comply with all MDAD security requirements, background checks, security badges, etc.

All selected contractors and their employees must comply with all MDAD security requirements including background checks, security badges, specialized aviation-related insurance requirements, etc. For contractors that do not already comply with MDAD's security requirements, MDAD may, at its sole discretion, consider making these security-related expenses reimbursable.

Upon the award, the awarded contractor will have up to sixty (60) calendar days to provide a copy of the security badges with the Customs Seal to MDAD/MPEC Division. If, after issuance of the NTP the contractor still is non-compliant with this requirement, MDAD will not issue any Work Order until the security badges with the Customs Seal is secured by the contractor for up to the next thirty (30) calendar days. If the Contractor fails to secure and provide a copy of the required Badges with the Customs Seal at the end of the additional thirty (30) calendar days, Contractor may be terminated for default as established in Section 1 of the General Terms and Conditions, Article 1.20 (Termination for Default) of the MCC 7040 contract. MDAD reserves the right to suspend non-compliant contractors from participation in the MDAD/MCC 7040 Work-Order Based program.

The following items are reimbursable:

- Actual cost of MDAD identification (ID) badges with a customs Seal
- The Custom Border Protection (CBP) Seal /bond.
- Actual cost of fingerprints.
- The AOA driving training.
- The vehicle Decal necessary to drive in AOA.

All other costs are not reimbursable and if not specifically mentioned in the pay items listed in the Bid Form shall be considered as incidental to one or more of the pay items, and no claim for additional compensation will be allowed, and it shall be assumed that the cost therefore is included in the prices for the various items in the Contract.

9. Upon selection of participating contractors, individual work orders for each contractor shall be self-rotated by MDAD based on contractor availability, prior responsiveness, previous performance, urgency of the work and any other factor as may be determined by MDAD. It should be noted that this work based program is for on-call emergency/priority services and MDAD does not guarantee that selected contractors will be issued any work.

10. Selected contractors must agree to respond to an emergency/priority call within two (2) hours of first contact from MDAD staff and be available to respond 24 hours per day and 7 days a week with the necessary equipment, materials and labor force to complete the required work in accordance with MDAD's schedule for completion. The definition of an adequate response shall be determined at MDAD's sole discretion on a case-by-case basis. Once a contractor has responded within two (2) hours, MDAD staff will work with the contractor to determine the best course of action, establish the scope of the work and schedule the work. Failure to respond two consecutive times within two (2) hours of being contacted for work may result in the firm being removed from participation in the work order based program.

11. MDAD shall provide selected contractors with sample work order forms and technical specifications for each respective trade as applicable.

12. Prospective bidders are notified that Responsible Wages and Benefits requirements apply to this Request for Price Quotation (RPQ), therefore all labor rates listed on the bid Form under PART II: Unanticipated Scope of Work – shall not be less than those contained in the Wage and Benefits Schedule in effect as of January 1st of the year the work is performed.

All labor classification listed in the Bid Form must have a value greater than zero (\$0.00) and must be in compliance with the Responsible Wages and Benefits requirements. Failure to submit a price for all labor classification shall be considered a non-curable deficiency and shall render the bid "Non-Responsive"

Furthermore, all other Pay Items listed in the Bid Form (Mobilization & Markup) must also have a value greater than zero; failure to comply with this requirement will not constitute a curable deficiency and shall render the bid "Non-Responsive".

13. Prices under Part I of the Technical Specification (Pay Items 1.2 to 1.20) shall include the cost of labor, all material, hand tools, and the minimum equipment required to accomplish the specified scopes of work. The work includes the removal and proper disposal of selective demolition and waste materials.

14. Once a site visit is scheduled and attended by the Contractor, MDAD staff will work with the contractor to determine the best course of action, establish the scope of the work and schedule the work. Thereafter, the Contractor shall submit a formal proposal within 10 business days after the site meeting with a detailed scope of work to be performed and its cost breakdown. MDAD, based on the complexity of the scope of work, may grant additional time for the submission of the required proposal. The request for additional time shall be submitted in writing to the PM/CM in order to be valid and considered for approval by MDAD staff. Contractors that do not submit the required proposal as previously mentioned, will be issued a letter for deficiency. If the Contractor fails to provide a proposal after the deficiency letter has been sent, a Notice to Cure will be issued. Upon the contractor not submitting the required proposal after a Notice to Cure letter has been issued, the Contractor may be Terminated for Default as established in Section 1 of the General Terms and Conditions, Article 1.20 (Termination for Default) of the MCC 7040 contract. MDAD reserves the right to suspend non-

compliant contractors from participation in the MDAD/MCC 7040 Work-Order Based program.

15. The costs for a potential storage container, potential temporary toilets, and potential dumpsters are not reimbursable and if not specifically mentioned in the pay items listed in the Bid Form shall be considered as incidental to one or more of the pay items, and no claim for additional compensation will be allowed, and it shall be assumed that the cost therefore is included in the prices for the various items in the Contract.

MDAD will confirm the listed experience by calling the firms' owners or representatives. Should such evidence not be satisfactory to MDAD, whose decision shall be final, the submission will be considered non-responsive. Further, any incidence of project delays in a contractor performance evaluation must be justified to the satisfaction of MDAD.
6. Contractors shall provide an established safety program and implementation policy. Contractors' safety programs shall be reviewed and approved by MDAD post-bid submittal and work orders shall not be issued to any contractor until their safety program is approved by MDAD.

B. Indemnification and Insurance (See attached)

Insurance requirements are non-reimbursable and if not specifically mentioned in the pay items listed in the Bid Form shall be considered as incidental to one or more of the pay items, and no claim for additional compensation will be allowed, and it shall be assumed that the cost therefore is included in the prices for the various items in the Contract.

The Contractor shall furnish certificates of insurance and insurance policies to the Owner prior to commencing any operations under this Contract. Certificates and policies shall clearly indicate that the Contractor has obtained insurance, as required for strict compliance with this specification. Compliance with the foregoing requirements shall not relieve the Contractor from liability under any other portion of this Contract.

The Contractor shall be responsible for assuring that the insurance certificates required in conjunction with this section remain in force for the duration of the agreement.
